## ICOE: Elevating Obstetric Care

Since 2014, ICOE has been committed to delivering high-quality, simulation-based obstetric emergencies training programs in Malaysia and across the region. We have consistently heard from participants of the invaluable hands-on sessions.

For 2025, ICOE is excited to announce a renewed focus on practical skills incorporating new material from our new award winning second edition of the Handbook in Obstetric Emergencies.

### Here's what you can expect:

- 1. Pre-Course Preparation:** Two weeks before the course, you'll receive comprehensive lecture materials via Google Classroom. Review these at your own pace and familiarize yourself with the learning objectives.
- 2. Self-Assessment:** A week before the course, you'll receive a set of MCQs on Google Classroom. These will help you gauge your knowledge and identify areas we can assist you more.
- 3. Intensive, Hands-On Training:** The two-day, on-site skills course will immerse you in a dynamic learning environment. You'll work in small groups at eight breakout stations, tackling a variety of obstetric emergencies under the guidance of experienced ICOE trainers. You'll refine your non-technical skills to ensure safe and effective obstetric care.
- 4. Networking:** While learning from experts you will have ample opportunities to network with senior and junior colleagues both from public and private hospitals.

*Together, let's strive for Safe Childbirth, Everytime, Everywhere.*
